

### **Interview Summary:**

In response to the Examiner Interview of March 5, 2009, Applicant hereby submits a summary of the interview.

A personal interview took place for the subject application on March 5, 2009, with Examiner Johnson, Primary Examiner Pham, and Applicant's Attorney. There was no exhibit or demonstration of the invention provided during the course of this interview. The interview focused on a proposed amendment to the claims submitted to the Examiner prior to the Interview. More specifically, the Applicant's Attorney provided an oral explanation of the invention to the Examiner, and then identified the points of novelty as reflected in the proposed claim amendment(s). The prior art references of record were briefly discussed, and specifically how the proposed and discussed amended limitations teach away from the prior art references applied by the Examiner. It was agreed by the Examiners that Applicants proposed amended overcomes the prior art of record, but that Examiner Johnson would have to update her search in Response to submission of a formal amendment to the claims.

Applicants believe that a full and complete reply has been made to the Examiner's Interview. If the Examiner believes, for any reason, that personal communication will expedite prosecution of the application, the Examiner is hereby invited to telephone the undersigned at the number provided.
